

In 2019 Mercy International Association will celebrate 25 years since the House of Mercy was renovated and opened as Mercy International Centre. The first dream for the Centre was that it would preserve the heritage, so each month of this special calendar highlights one of the precious heritage pieces now held at the Centre.

The photographs throughout the calendar include traditional favourites as well as some new images that were captured during the making of a new film on Catherine McAuley that will be released for the jubilee year. The design includes large spaces for writing appointments or events.

Calendars cost €8.00 each if you collect from the shop, or €10.00 each including worldwide postage.
